STOP THE INSANITY!

Can anyone outside of the disgruntled few competitors who somehow got the DOJ under Clinton to initiate this mess tell me why this is continuing?

This was never about "consumers"

I use Microsoft stuff, you do to. It keeps getting better every iteration at basically the same.

This case has been a colossal waste of Tax payer dollars, put a huge drag on most 401 K's etc. etc.

In the name of consumers everywhere who are much more affected by this case's affect on their personal wealth than anything else....PLEASE SETTLE!
